

8.375" WIDE X 10.635" HIGH FULL PAGE AD TEMPLATE

■ Bleed Area (0.25")

The bleed extends 0.25 inches beyond the edge of your finished document. Colors and images must extend beyond the edge of your finished document to prevent unwanted white borders. When printed, this 0.25 inch area will be cut off to create the finished 8.375" wide by 10.635" high size. With the bleed included, the dimensions of your ad should be 8.875" wide x 11.135" high.

■ Safe Zone (0.4375")

All important elements of your artwork should be at least 0.4375 inches from the edge of the page (unless they are meant to bleed to the edge of the page) or they may be cut off. Any important text should not enter this area. We recommend keeping all text within the white area on this template.

■ Page Number Zone

The black areas in the bottom corners represent the page number zones. The Glen Ellyn Park District utilizes a shape behind the page number. Any art elements placed within this area will be covered by the shape.
